## EDUCATION

B.Tech in AI & ML | Allenhouse  
Institute of Technology | [2022-  
2026]

Intermediate & High School | PDK  
Girls Inter College | [2022]

## RELEVANT SKILLS

- Analytical Thinking
- Problem-Solving
- Communication & Teamwork-
- Time Management

## CAREER OBJECTIVE

B.Tech student specializing in AI & ML at Allenhouse Institute of Technology with a strong foundation in Python, SQL, DSA, and Web Development. Passionate about problem-solving and analytics, I have completed a web development internship and earned certifications in Python and Data Science. Currently enhancing expertise in React and Data Analytics, aiming to build impactful projects. Seeking an internship opportunity to contribute technical and analytical skills in a dynamic environment.

## INTERNSHIPS

Completed a non-technical internship at Younity, gaining practical experience in marketing and business development. Learned digital marketing strategies, client communication, and outreach techniques. Participated in campaign promotions and social media activities. Improved communication, teamwork, and customer relationship management skills.
